

Oyster Point Pharma to Present Data at the American Academy of Ophthalmology Annual Meeting 2021

November 9, 2021

PRINCETON, N.J., Nov. 09, 2021 (GLOBE NEWSWIRE) -- Oyster Point Pharma, Inc. (Nasdaq: OYST), a commercial-stage biopharmaceutical company focused on the discovery, development and commercialization of first-in-class pharmaceutical therapies to treat ophthalmic diseases, today announced multiple scientific presentations at the American Academy of Ophthalmology (AAO) Annual Meeting 2021 being held in New Orleans, LA November 12th – 15th, 2021.

"The American Academy of Ophthalmology is the world's largest association of eye physicians and surgeons whose mission is to empower lives by serving as an advocate for patients and the public, leading ophthalmic education, and advancing the profession of ophthalmology," said Marian Macsai, MD Chief Medical Officer of Oyster Point Pharma. "We are pleased to share a number of data presentations from company-sponsored clinical trials at this year's meeting highlighting the recently approved TYRVAYA™ (varenicline solution) Nasal Spray for the treatment of the signs and symptoms of dry eye disease."

Papers/Posters

Title: ONSET-2 Phase 3 Trial of OC-01 (varenicline solution) Nasal Spray for the Treatment of the Signs and Symptoms of Dry Eye Disease

Presenter: Marjan Farid, MD

Location: Morial Convention Center, Room 255-257

Presentation Date/time: November 14 at 8:48am–8:55am CST

Title: OC-01 Nasal Spray Clinical Sign Outcomes in Dry Eye Disease by Baseline Stratification Factors - Combined ONSET-1 & -2

Presenter: John D Sheppard MD

Location: Morial Convention Center, Hall C (Poster Theater and Lounge)

Presentation Date/Time: November 14 at 3:45-4:45 pm CST

Title: OC-01 (varenicline solution) Nasal Spray Clinical Sign Outcomes in Dry Eye Disease by Age and Artificial Tear Use – A Subgroup Analysis

Presenter: Alice T. Epitropoulos, MD

Location: Virtual

Presentation Date/Time: On Demand

About Dry Eye Disease and the Role of Tear Film

Dry eye disease is a chronic condition that impacts an estimated 38 million people in the U.S. and is growing in prevalence.^{1,2} It can cause persistent stinging, scratching, burning sensations, sensitivity to light, blurred vision, and eye fatigue. Dry eye disease is a multifactorial disease of the ocular surface characterized by disruption of the tear film. Human tear film is a complex mixture of more than 1,500 different proteins, including growth factors and antibodies, as well as numerous classes of lipids and mucins.³ Natural tear film protects and lubricates the eyes, washes away foreign particles, contains growth factors and antimicrobial components, and creates a smooth surface that forms the primary refractive surface of the eye.

About TYRVAYA™ (varenicline solution) Nasal Spray

TYRVAYA (varenicline solution) Nasal Spray 0.03 mg (formerly referred to as OC-01 nasal spray) is a highly selective cholinergic agonist that is FDA-approved to treat the signs and symptoms of dry eye disease as a multidose nasal spray. The parasympathetic nervous system, the "rest and digest" system of the body, controls tear film homeostasis partially via the trigeminal nerve, which is accessible within the nose. The efficacy of TYRVAYA Nasal Spray in dry eye disease is believed to be the result of varenicline's activity at heteromeric sub-type(s) of the nicotinic acetylcholine (nACh) receptor where its binding produces agonist activity and activates the trigeminal parasympathetic pathway resulting in increased production of basal tear film as a treatment for dry eye disease. Varenicline binds with high affinity and selectivity at human $\alpha 4\beta 2$, $\alpha 4\alpha 6\beta 2$, $\alpha 3\beta 4$, $\alpha 3\alpha 5\beta 4$ and $\alpha 7$ neuronal nicotinic acetylcholine receptors. The exact mechanism of action is unknown at this time.

TYRVAYA™ Important Safety Information

The most common adverse reaction reported in 82% of patients was sneezing. Events that were reported in 5-16% of patients were cough, throat irritation, and instillation-site (nose) irritation. There are no contraindications associated with TYRVAYA™ (varenicline solution) Nasal Spray.

Forward-Looking Statements

This press release contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 that reflect the

current beliefs, expectations and assumptions of Oyster Point Pharma (the “Company” or “our”) regarding the future of the Company’s business, our future plans and strategies, regulatory approvals, preclinical and clinical results, future financial condition and other future conditions. All statements other than statements of historical facts contained in this press release, including express or implied statements regarding plans and objectives of management for future operations, future results of operations and financial position, business strategy, product candidates, regulatory approvals, planned future product commercialization, planned preclinical studies and clinical trials, expected results of preclinical studies or clinical trials, and their timing and likelihood of success, expected research and development commercialization costs, are forward-looking statements. The words “if approved,” “may,” “will,” “should,” “would,” “expect,” “plan,” “anticipate,” “could,” “intend,” “target,” “project,” “contemplate,” “believe,” “estimate,” “predict,” “potential” or “continue” or the negative of these terms or other similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain these identifying words. These forward-looking statements are subject to a number of risks, uncertainties and assumptions, including, among other things: our plans and potential for success relating to commercializing TYRVAYA; the beneficial characteristics, safety, efficacy and therapeutic effects of TYRVAYA and our preclinical and clinical product candidates; our plans relating to the further development and manufacturing of TYRVAYA and our preclinical and clinical candidates, including potential additional indications or disease areas to be evaluated and pursued; the timing of initiation of our future preclinical studies or clinical trials; the uncertainties inherent in pharmaceutical research and development, including preclinical study and clinical trial results and additional analysis of existing data; the likelihood of clinical trials demonstrating safety and efficacy of our product candidates, and other positive results; the timing or likelihood of regulatory filings and approvals TYRVAYA and our clinical and preclinical candidates, including in potential additional indications for TYRVAYA and potential filings in additional jurisdictions; our plans and ability to obtain or protect intellectual property rights including extensions of existing patent terms where available; our ability to recruit and retain key personnel needed to develop and commercialize our product candidates, if approved, and to grow our company; existing regulations and regulatory developments in the United States and other jurisdictions; our continued reliance on third parties to conduct additional preclinical studies and clinical trials of our product candidates, and for the manufacture of our product candidates for potential commercialization and for preclinical studies and clinical trials; the impact of the COVID-19 pandemic on our business, operations, and regulatory and clinical development timelines; the accuracy of our estimates regarding expenses, future revenue, capital requirements and needs for additional financing; our financial performance; market conditions; the sufficiency of our existing capital resources to fund our future operating expenses and capital expenditure requirements; and other risks described in the “Risk Factors” section included in our public filings that we have made and will make with the Securities and Exchange Commission (SEC). The Company is providing the information in this press release as of this date and does not undertake any obligation to update any forward-looking statements contained in this press release as a result of new information, future events or otherwise.
